

## 1. Overview

**Registration** is the process of:

- a) entering teams of fencers to the EVF Championships
- b) entering individuals to the team of organisers, competition officials and EVF officials.

**Accreditation** is receiving individuals at the event, marking them as present and issuing an Accreditation Tag to wear.

The organisers of the Championships send an Intention To Participate form (sample on the website) to the national representative (the person named on the Contacts page of the website).

The Intention To Participate must nominate the Head Of Delegation (HoD). This person will then be the point of contact between the organisers and that nation.

Entries will only be accepted from the HoD and not from individual fencers.

A delegation is made up of Teams of fencers (Athletes) and Supporters ie people not competing such as a Coach or a partner.

Each delegate has a Role (Athlete, Head of Delegation, Coach or Team Support). Partners are registered as Team Support.

A photograph should be submitted for each delegate which will be used to create an Accreditation Tag.

Registration of organisers and competition officials (referees, armourers, medical staff, volunteers) is done by the Event Manager.

Registration of EVF officials is done by the EVF Secretary

Tickets to the Gala Dinner can be purchased during registration.

The Closing Date for Registration is April 1<sup>st</sup> or 4 weeks before the event opens, whichever is the later.

The HoD may enter and edit his/her Teams and Support and Dinner requirements up to the Closing Date.

Payment is due on or before the Closing Date.

## 2. EVFC Database

There is a database of around 2,500 EVF fencers who competed in EVF Championships since 2011. This database makes it easier for the HoD to enter the team members. Fencers who are not found in the database are added in Registration so the database is always improving.

The configuration is that the software and database are located on the EVF server. Users are able to connect to the server over the Internet.

### 3. Users of the Registration Software

There are several types of user:

- HoD – can enter and edit teams, book Gala Dinner tickets, can submit photographs for Accreditation Tags.
- EVF Secretary - can enter EVF officials, book Gala Dinner tickets, can submit photographs for Accreditation Tags.
- Event Manager – can see the entries, can export data to DT to run the event, can edit team entries. Can enter competition officials and volunteers, book Gala Dinner tickets, can submit photographs for Accreditation Tags
- Accreditation Team – prepares Accreditation Tags. Marks participants as present at the event and informs DT of missing teams or individuals the evening before a competition
- System Administrator – can add new events, can add new Heads of Delegation (HoD)
- Cashier – monitors the event bank account and notes entry fees paid in

There are more facilities available as one goes down the list of users. The main features of the system for these types of user are described in the sections below.

### 4. Head of Delegation

Log on to the on-line Registration system using the email address and password that has been sent to you.

The opening screen for the GBR Head of Delegation looks like this:

The Cashier monitors the bank account for the event. Each payment is located in the lists above and the Cashier clicks the Paid button. The entry is marked as paid in the database and the entry disappears from the list.

## 8. Accreditation

The Accreditation process involves the following stages:

- At the closing date - Exporting data to set up Fencing Time and to print Accreditation Tags
- At the event - Welcome the participants and check them in
- Inform DT of missing teams

### 8.1. Export Data

Click on the Export button and a select a country from the pull down list:

#### Export Data

Select a Country to export. Organisers belong to ORG.

Click on Export. An Excel file is downloaded to your computer named with the country selected:

Save this file, it is used for the creation of Accreditation Tags covered in a later section.

## 8.2. Check In

**Accreditation**

Click on the Accreditation button to check in participants.

At the event the Accreditation Team receive the participants (ie fencers and support), mark them as present in the database and check the year of birth against the fencer's passport.

The Accreditation program is designed to make the process efficient. Several people can run the Accreditation program at the same time.

The opening screen for the Accreditation Team looks like this:

**Accreditation**

The Accreditation team can check the date of birth of each fencer and can see whether a participant has booked for the Gala Dinner (and can give a ticket).

**8.3. Report Missing Teams**

Click on the DT button.

At a certain time, usually 17:00 hrs on the day before a competition, the Accreditation Team produces a report to show fencers entered in competitions who have not checked in. The event days are listed:

**DT Information**

Sat May 12

Choose one of the 4 days and click on Select.

**6 Competitors not checked in for competitions on Saturday 12 May**

Country	Surname	Firstname	Comp
GBR	BARNETT	Keith	ME
NED	MATLA	Alex	ME
NED	VAN DE WERFF	Roger	ME
GBR	COULTER	Grace	WS
GBR	HENDRA	Vanessa	WS
GBR	NAREY	Michele	WS

---

The report shows fencers registered but not yet accredited (ie checked in).

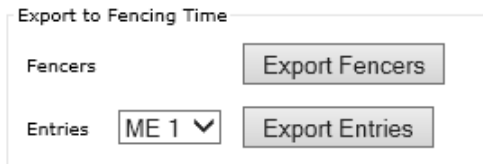

The report is printed and passed to DT for teams/individuals to be scratched.

#### 8.4. Export Data For Fencing Time

When the entry closes, typically one month before the event opens, data is exported to Fencing Time to provide the information to run the event. The competitions are set up manually with the System Administrator functions (see Section 9).

 Click on the DT button.

The screen shows:

Export to Fencing Time

Fencers

Entries

To export the list of Registered fencers click on the Export Fencers button.

A file in CSV format is downloaded. Save this file and use it to import fencers into the Fencing Time database.

To export the entries, select a competition from the pull-down list and click on the Export Entries button.

A file in CSV format is downloaded. It is named with the competition name eg ME1.CSV. Save this file and use it to import the fencers into a competition (known as an Event in Fencing Time) in the Fencing Time database.

## 9. System Administrator

The opening screen for the System Administrator looks like this:

All button options with the exception of Administration have been covered in earlier sections.

**Administration** Click on the Administration button. A list of buttons appears:

Each of these buttons is described in the following sections.

### 9.1. Events

**Events** Click on the Events button. A list of EVF and World Championship events are shown:

**Event List**[New Event](#)

**9.3. Functions**

**Functions should not be entered or edited.**

## 9.4. People

Click on the People button. A list of persons are shown:

### List Persons

Id	Inits	Firstname	Surname	Edit	Delete
3	GA	Gillian	Aghajan	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
25	CA	Chiara	Alfano	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
34		Boglarka	Bolvari	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
32		Vladyslav	Boykov	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>
35		Anne	Dawkins	<input type="button" value="Edit"/>	<input type="button" value="Delete"/>

For a new event the following people should be added to the list:

- The Event Manager
- The Registration/Accreditation Manager
- Any Head of Delegation who does not already have an entry

An entry enables giving rights of access to parts of the software program so it is important to restrict the number of people to the minimum.

**Note: Entry of new Persons is implemented without type. The distinction between HoD and Official is made in the database with phpAdmin.**

## 9.5. Access Control

**Access Control should not be entered or edited. Call the System Administrator if there is a problem.**

## 9.6. Roles

**Roles should not be entered or edited. Call the System Administrator if there is a problem.**

## 9.7. Assignments

A Person is assigned to a Role for a given Event. The roles to be assigned are:

- Event Manager
- Accreditation Manager
- Head of Delegation
- System Administrator

Click on the Assignments button. A list of assignments is shown:

**10. Preparing Accreditation Tags**

Tags are prepared by merging the following:

- Information on Participants from the database
- Photographs submitted during Registration
- Static images eg country flags
- A Word Template

to produce a document that can be filed and printed on a colour printer.

The software package used is **onMerge Images +Barcodes Suite** <https://onmerge.com> which adds functionality to the MailMerge facilities of Microsoft Word.

The process is run on a single PC connected to a printer.

It is suggested that the files are stored on a PC in the following folders:

My Documents

EVF Accreditation

Excel Teams

Tag Files

Excel Files exported from the database

Output files ready for printing

**10.1. Participants Data**

Participants' data is exported from the server as an Excel file by Accreditation or the Event Manager .

**10.2. Images**

The templates are configured to access image files on the EVF server:

- Photographs of participants
- Country flags
- Day images
- QR image to point at the event website

### 10.3. Word Templates

Prepare 2 Accreditation Tag templates, one for Athletes and a second for Organisers and Officials. Samples are available on the [EVF website](#), the organisers are expected to use their own graphics and colour scheme. The features are:

- The Accreditation Tag is double sided to ensure that the important information is always visible.
- The Tags are printed on A5 paper, folded and laminated in an A6 pouch. The pouch is then manually punched for a lanyard.

### 10.4. Running onMerge

Select a country to process (note that the organisers belong to their own country ORG and have their own template).

Check the quality of the participants' photographs. Request replacements from the Head of Delegation when appropriate. Photographs may have to be cropped or improved.

Export the participant data from the database in the form of an Excel file. Save the file locally in the Excel Folder.

Open a template with Microsoft Word (onMerge must be installed on the PC) .

Select Mailings -> Start Mail Merge -> Normal Word Document

Select Mailings -> Select Recipients -> Use Existing List and choose the Excel file exported from the database.

For **participants** the templates are set up to merge images for the participant, the earliest day the fencer can submit weapons to control and the participant's country flag.

For **organisers** the templates are set up to merge images for the person and the roles assigned.

Select Mailings ->Finish and Merge -> Edit Individual Documents and a document is created with one page per participant for the country selected.

Review the file to check for quality and consistency.

Save the file for later printing.
