AEVE annual report season 2024-2025

The Spanish Association of Veteran Fencing (AEVE) has completed another season leading the management of veteran fencing.

The number of members has increased.

As we indicated in the 2024 report, this season we have increased the number of our own competitions, which have been well received. An A EVE league has been created, consisting of four qualifying events:

- EVF-Circuit Madrid
- Two League tournaments
- A EVE Cup

Participation in its own competitions has increased, and it has been noted that some of the competitions shared with the Spanish Federation have not been attractive.

There has been a positive response from members regarding participation.

EVF-Circuit de Madrid has consolidated its position and increased its participation by 30%, with a very high percentage of foreign fencers. It has received good ratings from EVF, with a high level of competition for the event.

We maintain our agreement with the Spanish Federation and an excellent collaboration and mutual commitment with the Madrid Fencing Federation, which will be our partner in organizing the European Veterans Championship in Madrid in 2026.

More and more clubs have become involved in our activities.

We continue to promote veteran fencing and offer our products.

We continue to maintain a significant gap between the number of women and men who practice fencing, as in other countries.

The Spanish Veterans Fencing Association continues to be the benchmark in the management, organization, and knowledge of veterans fencing, and a high level of acceptance, trust, and the "AEVE brand" have been generated in our management.
